30th January 2025

Report on the MOU Signing Ceremony and Two Days Skill Development Training on "Advanced Techniques for Smartphone Troubleshooting"

The Department of Computer Applications at Don Bosco College of Arts and Science, Keela Eral, Thoothukudi, organized a significant MOU signing ceremony followed by a two-day skill development training program on January 29th and 30th, 2025. The training was focused on "Advanced Techniques for Smartphone Troubleshooting", aimed at equipping students and participants with essential skills in diagnosing and repairing smartphone issues.

Inaugural Ceremony and MOU Signing:

The event began with the MOU signing ceremony, marking a key milestone in the collaboration between Don Bosco College of Arts and Science and New Technology, Coimbatore. The signing of this MOU is a testament to the college's commitment to providing industry-relevant training and enhancing the employability of students.

The ceremony was attended by several distinguished dignitaries:

Rev. Dr. P. Raja Devan, the Secretary of the college,

Dr. M. Prabhu, the Principal,

Rev. Fr. P. Peter Arockiaraj, the Academic Coordinator, Dr. S. Alexander Suresh, Assistant Professor, DB Computer Academy Coordinator and

Dr. B. Krishna Kumar, the Founder and CEO of New Technology, Coimbatore, who also served as the resource person for the training.

The ceremony witnessed the exchange of documents between the college and New Technology, formalizing the partnership for future collaborations in skill development.

Skill Development Training:

The training sessions commenced, led by Dr. B. Krishna Kumar, a renowned expert in the smartphone industry with over two decades of experience. Dr. Kumar shared his expertise on advanced smartphone troubleshooting techniques, covering essential topics such as:

- *Smartphone hardware diagnostics*
- *Software troubleshooting and restoration techniques*
- *Practical repair methods*
- *Identifying common smartphone problems and their solutions*

The sessions were highly interactive, and participants had the opportunity to engage in hands-on activities, allowing them to apply the troubleshooting methods taught. The training aimed at improving participants' technical knowledge and preparing them for future careers in the smartphone repair industry.

Expert Guidance: Dr. B. Krishna Kumar's extensive experience and insights into the smartphone industry enriched the sessions and inspired many students to consider careers in smartphone technology.

Hands-on Experience: Participants gained practical skills that are directly applicable to smartphone troubleshooting and repairs, making the training highly relevant for their career development.

Industry Collaboration: The MOU with New Technology, Coimbatore, serves as a bridge between academic knowledge and industry practice, providing students with an opportunity for real-world exposure.

Conclusion and Acknowledgments:

The event concluded with a certificate distribution ceremony, where certificates of participation were presented to the attendees in recognition of their involvement and achievements during the training. The ceremony was attended by various dignitaries and faculty members who expressed their support for such initiatives.

A vote of thanks was delivered by Ms. Maria Swetha, who acknowledged the contributions of the resource person, the guests, the organizing team, and the participants. She expressed gratitude for the success of the event and emphasized the importance of continuous learning in the rapidly advancing field of technology.

Future Prospects:

This MOU signing and training event marks the beginning of a valuable partnership between Don Bosco College of Arts and Science and New Technology, Coimbatore. It is expected that such collaborations will continue to provide students with cutting-edge skills and help them stay ahead in the ever-evolving technology sector.
